

Just a few months ago, William, Timothy and Mary Smith couldn't read the blackboard... because they couldn't see it.

Today things look much clearer for the siblings since they received their first pairs of eyeglasses. With money donated to the Orlando Sentinel Family Fund – along with matching funds from the Robert R. McCormick Tribune Foundation – we were able to grant more than half a million dollars this summer to organizations that help kids and families. So far this year, we have donated more than \$900,000 to charitable organizations throughout Central Florida – including Jeppesen VisionQuest, which provides free eye exams and eyeglasses to at-risk children.

Jeppesen VisionQuest plans to see at least 600 kids this year at its mobile eye clinic, which gives on-site eye exams at area schools. With its \$25,000 grant, the organization can continue to help children like the Smiths – all of whom have improved their grades by at least one letter grade since receiving their new glasses.

Thanks to our Central Florida donors, the Orlando Sentinel Family Fund is helping kids see further.
